

SAFETY DATA SHEET

1. SUBSTANCE AND SOURCE IDENTIFICATION

Product Identifier

SRM Number: 921
SRM Name: Cortisol (Hydrocortisone)
Other Means of Identification: Not applicable.

Recommended Use of This Material and Restrictions of Use

This Standard Reference Material (SRM) is intended primarily for use in the calibration and standardization of procedures for cortisol determinations and for routine critical evaluation of the daily working standards used in these procedures. A unit of SRM 921 consists of 1 g of material. This SRM is for research use.

Company Information

2. HAZARDS IDENTIFICATION

Classification

Physical Hazard: Not classified.
Health Hazard: Reproductive Toxicity Category 2

Label Elements

Symbol

Signal Word

WARNING

Hazard Statement(s)

H361 Suspected of damaging fertility or the unborn child.

Precautionary Statement(s)

P201 Obtain special instructions before use.
 P202 Do not handle until all safety precautions have been read and understood.
 P280 Wear protective gloves, eye protection, and protective clothing.
 P308+P313 If exposed or concerned: Get medical attention.
 P405 Store locked up.
 P501 Dispose of contents and container in accordance with local regulations.

Hazards Not Otherwise Classified: None.

Ingredients(s) with Unknown Acute Toxicity: None.

3. COMPOSITION AND INFORMATION ON HAZARDOUS INGREDIENTS

Substance: Cortisol (Hydrocortisone)

Other Designations: 11,17,21-trihydroxypregn-4-ene-3,20-dione; anti-inflammatory hormone; hydrocortisyl; hydrocorticosterone; 17-hydroxycorticosterone

NOTE: Components are listed in compliance with OSHA's 29 CFR 1910.1200. For actual values, see the NIST Certificate of Analysis.

Hazardous Component(s)	CAS Number	EC Number (EINECS)	Nominal Mass Concentration (%)
Cortisol (Hydrocortisone)	50-23-7	200-020-1	99

4. FIRST AID MEASURES

Description of First Aid Measures

Inhalation: If adverse effects occur, remove to uncontaminated area. Give artificial respiration if not breathing. Get immediate medical attention.

Skin Contact: Wash skin with soap and water for at least 15 minutes while removing contaminated clothing and shoes. Get medical attention, if needed. Thoroughly clean and dry contaminated clothing and shoes before reuse.

Eye Contact: Flush eyes with plenty of water for at least 15 minutes. Then get immediate medical attention.

Ingestion: If a large amount is swallowed, get medical attention.

Most Important Symptoms/Effects, Acute and Delayed: Systemic poisoning and irritation.

Indication of any immediate medical attention and special treatment needed, if necessary: If any of the above symptoms are present, seek immediate medical attention.

5. FIRE FIGHTING MEASURES

Fire and Explosion Hazards: Slight fire hazard. Dust/air mixtures may ignite or explode. See Section 9, "Physical and Chemical Properties" for flammability properties.

Extinguishing Media

Suitable: Regular dry chemical, carbon dioxide, water, or regular foam.

Unsuitable: None listed.

Specific Hazards Arising from the Chemical: Not applicable.

Special Protective Equipment and Precautions for Fire-Fighters: Move container from fire area if it can be done without personal risk. Avoid inhalation of material or combustion by-products. Wear full protective clothing and NIOSH-approved self-contained breathing apparatus (SCBA).

NFPA Ratings (0 = Minimal; 1 = Slight; 2 = Moderate; 3 = Serious; 4 = Severe)

Health = 2

Fire = 1

Reactivity = 0

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures: Use suitable protective equipment; see Section 8, "Exposure Controls and Personal Protection". Keep out of waters supplies and sewers.

Methods and Materials for Containment and Clean up: Collect spilled material in appropriate container for disposal. Keep out of water supplies and sewers. Keep unnecessary people away, isolate hazard area and deny entry.

7. HANDLING AND STORAGE

Safe Handling Precautions: Use methods to minimize dust. See Section 8, “Exposure Controls and Personal Protection”.

Storage and Incompatible Materials: Keep this SRM refrigerated (4 °C) in a well-closed container away from direct sunlight. Keep separated from incompatible substances (See Section 10, “Stability and Reactivity”).

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Exposure Limits: This material is a particulate matter and adequate inhalation/respiratory protection should be used to minimize exposure. No occupational exposure limits have been established for this material. The exposure limits for Particulates Not Otherwise Regulated are applicable.

OSHA (PEL): 15 mg/m³ (TWA, total particulates)
 5 mg/m³ (TWA, respirable particulates)

Engineering Controls: Provide local exhaust or process enclosure ventilation system. Ensure compliance with applicable exposure limits.

Personal Protection Measures: In accordance with OSHA 29 CFR 1910.132, subpart I, wear appropriate Personal Protective Equipment (PPE) to minimize exposure to this material.

Respiratory Protection: If workplace conditions warrant a respirator, a respiratory protection program that meets OSHA 29CFR 1910.134 must be followed. Refer to NIOSH 42 CFR 84 for applicable certified respirators.

Eye Protection: Splash resistant safety goggles and emergency eyewash are recommended.

Skin and Body Protection: Chemical resistant clothing and gloves are recommended.

9. PHYSICAL AND CHEMICAL PROPERTIES

Properties	Cortisol (Hydrocortisone) - (99 %)
Molar Mass (g/mol)	362.5
Molecular Formula	C ₂₁ H ₃₀ O ₅
Appearance (physical state, color, etc.)	white, crystalline solid
Odor	Odorless
Odor threshold	not available
pH	not available
Evaporation rate (butyl acetate = 1)	not available
Melting point/freezing point	not available
Relative Density	not available
Vapor Pressure	not available
Vapor Density (air = 1)	not available
Viscosity	not available
Solubilities	slightly soluble in water solvent: sulfuric acid, alcohol, ether, chloroform
Partition coefficient (n-octanol/water)	not available
Thermal Stability Properties	
Autoignition Temperature	not available
Thermal Decomposition	211 °C to 220 °C (412 °F to 428 °F)
Initial boiling point and boiling range	not available
Explosive Limits, LEL (Volume %)	not available
Explosive Limits, UEL (Volume %)	not available
Flash Point (Closed Cup)	not available
Flammability (solid, gas)	not available

10. STABILITY AND REACTIVITY

Reactivity: Stable at normal temperatures and pressure.

Stability: X Stable Unstable

Possible Hazardous Reactions: Not applicable.

Conditions to Avoid: Avoid heat, flames, sparks, and other sources of ignition. Minimize contact with incompatible material.

Incompatible Materials: Oxidizing materials.

Hazardous Decomposition: Oxides of nitrogen, sulfur.

Hazardous Polymerization: _____ Will Occur X Will Not Occur

11. TOXICOLOGICAL INFORMATION

Route of Exposure: X Inhalation X Skin _____ Ingestion

Symptoms Related to the Physical, Chemical and Toxicological Characteristics: Systemic poisoning and irritation.

Potential Health Effects (Acute, Chronic, and Delayed)

Inhalation: Prolonged exposure may cause irritation, hoarseness and increase susceptibility to fungal infections of the mouth and throat. Systemic poisoning is possible at high dosage.

Skin Contact: Prolonged topical application may cause itching, erythema, dryness, epidermal and dermal atrophy manifested by thinning of the skin, possible pustulation, perioral dermatitis, impede healing of ulcers, and local hypertrichosis.

Eye Contact: Topical application may cause reversible mydriasis. Prolonged topical application may cause ptosis. Systemic poisoning is possible resulting in ocular effects such as increased susceptibility to fungal infections, corneal thinning, cataract formation, optic nerve damage, and blindness. Other systemic effects may occur as described in chronic ingestion.

Ingestion: A large single dose of corticosteroids is reported to be virtually without harmful effects. Systemic corticosteroid poisoning from chronic exposure may cause fluid retention, hypotension or shock-like reactions, muscle weakness and fatigue, osteoporosis, cardiovascular effects, pituitary and adrenal suppression, hyperglycemia, mental symptoms, acne, peptic ulcers, and increased susceptibility to infection.

Numerical Measures of Toxicity

Acute toxicity: Not classified; no data available.

Skin corrosion/irritation: Not classified.

Human, Dermal: 0.5 %; 1 % (moderate)

Serious eye damage/eye irritation: Not classified; no data available.

Respiratory sensitization: Not classified; no data available.

Skin sensitization: Not classified; no data available.

Germ Cell Mutagenicity: Not classified; no data available.

Carcinogenicity: Not classified.

Listed as a Carcinogen/Potential Carcinogen _____ **Yes** X **No**

Cortisol (Hydrocortisone) is not listed by IARC, NTP, or OSHA as a carcinogen.

Mutagenic: Human TC: 2 mmol/L (1h)

Reproductive Toxicity: Category 2; Effects on the embryo or fetus have been reported from ocular contact in rabbits during pregnancy. Rat, Subcutaneous TDLo: 220 mg/kg (pregnant 9 d to 19 d)

Specific Target Organ Toxicity, Single Exposure: Not classified; no data available.

Specific Target Organ Toxicity, Repeated Exposure: Not classified.

Systemic poisoning may result if therapeutic levels are exceeded for prolonged periods; see "Potential Health Effects (Acute, Chronic, and Delayed)" for information on chronic effects.

Aspiration hazard: Not applicable.

12. ECOLOGICAL INFORMATION

Ecotoxicity Data: No data available.

Persistence and Degradability: No data available.

Bioaccumulative Potential: No data available.

Mobility in Soil: No data available.

Other Adverse effects: No data available.

13. DISPOSAL CONSIDERATIONS

Waste Disposal: Dispose in accordance with all applicable federal, state, and local regulations.

14. TRANSPORTATION INFORMATION

U.S. DOT and IATA: This material is not regulated by DOT or IATA.

15. REGULATORY INFORMATION

U.S. Regulations

CERCLA Sections 102a/103 (40 CFR 302.4): Not regulated.

SARA Title III Section 302 (40 CFR 355.30): Not regulated.

SARA Title III Section 304 (40 CFR 355.40): Not regulated.

SARA Title III Section 313 (40 CFR 372.65): Not regulated.

OSHA Process Safety (29 CFR 1910.119): Not regulated.

SARA Title III Sections 311/312 Hazardous Categories (40 CFR 370.21):

ACUTE HEALTH: No

CHRONIC HEALTH: No

FIRE: No

REACTIVE: No

PRESSURE: No

State Regulations: California Proposition 65: Not listed.

U.S. TSCA Inventory: Listed.

TSCA 12(b), Export Notification: Not listed.

Canadian Regulations: WHMIS Information: Not provided for this material.

Disclaimer: Physical and chemical data contained in this SDS are provided only for use in assessing the hazardous nature of the material. The SDS was prepared carefully, using current references; however, NIST does not certify the data in the SDS. The values for this material are given in the NIST Certificate of Analysis.

Users of this SRM should ensure that the SDS in their possession is current. This can be accomplished by contacting the SRM Program: telephone (301) 975-2200; fax (301) 948-3730; e-mail srmmsds@nist.gov; or via the Internet at <http://www.nist.gov/srm>.
